

Epic Version: 2023

User(s) Affected: Research

Application: Beaker

Date in Effect: 6/11/2024

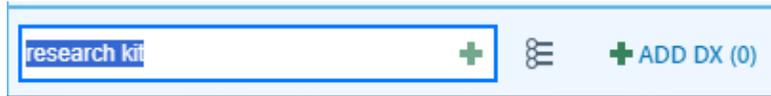

Topic: Research Kit Order Panel (LAB)

Description: New Research Kit Order Panel

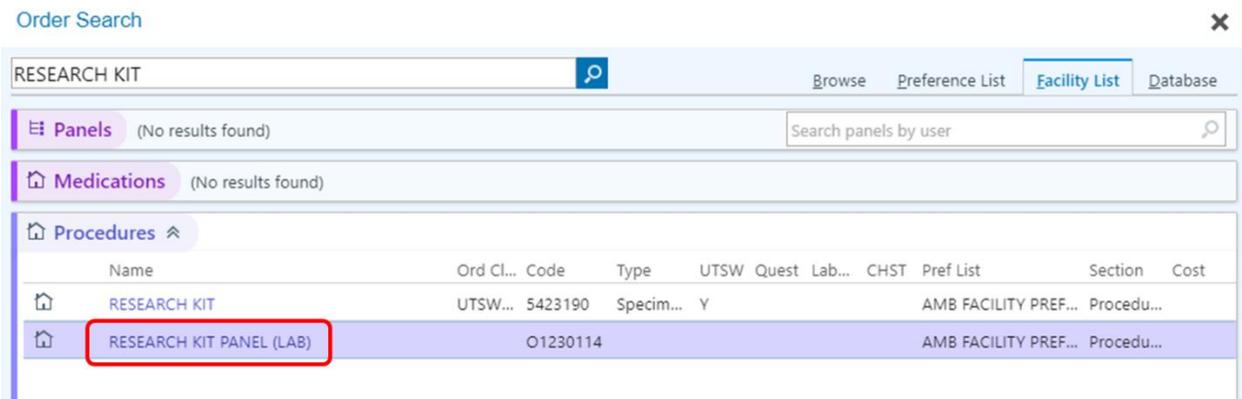

Ordering a Research Kit (LAB) test has become easier. There is now an order panel that will allow you to select different specimen types at one time. Follow the steps below to start using the new Order Panel

Steps to Take:

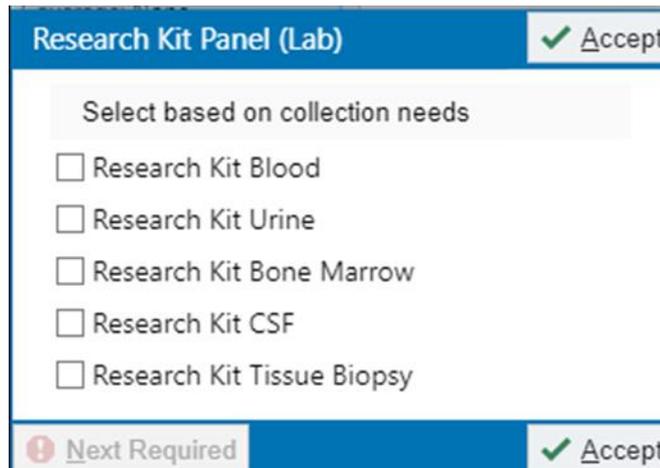

1. Navigate to your patient to place orders
2. Search for the following order: *Research Kit*

3. In the search box select: **Research Kit Panel (LAB)**

4. The Order will display for you to select the test with *appropriate specimen type*

- Once you select a box, the order will open for you to complete Order Questions and Comments
- Remember to complete the **Bill to Research Study** question for **each order**
