Just to note—I did not get this either. Departmental leadership may not be included in those job codes so it might be helpful to include them so they can share widely.

Importance: High

Hi Angelia,

Thank you for asking! You are correct; I would need to get permission first. 😊 I am looping in leadership to see if one of them can answer your question!

- [@Lucy Palmer](#) and [@Rhonda Oilepo](#): please see Angelia's question and kindly respond?

Thank you for your interest! Hopefully, we can get an answer soon.

Kind regards,
Sandra

Thank you, Sandra! You may not be the best person to ask, but is there a way we could get more job codes added to the list especially those team members who touch the bench, data, and regulatory?
